Date
Subject:

June 12, 1985

From : Governor's Office

This will confirm your advice of June 11, 1985 regarding the necessity of reporting air travel provided to the Governor in connection with his speech at the Robert Louis Stevenson School. You advised that where a third party provides air travel to a public official in connection with a speech before an academic, charitable, or educational institution, the public official is not required to report the value of the air service provided.

Therefore, the Governor is not obliged to report the value of air travel provided by a corporate donor to enable the Governor to travel to the above school to deliver a commencement address.

Thank you for your assistance in this matter.
