The price and other data shown above is delayed for at least 15 minutes (while U.S. Securities markets are open) for stocks only. All other prices/NAVs reflect previous day's close. In the wake of the extreme volume and volatility impacting the various equity and debt markets, the "Market Value" shown in your account may not necessarily be reflective of actual market prices.

This data is for informational purposes only and should not be used to make a decision to buy or sell any security.

In some instances, adjusted positions for stock splits or stock share dividends may be delayed and may not be reflected above. Please call your Financial Advisor for additional information.

Prices shown for fixed income securities are furnished by third party providers and may not reflect the current bid or offer price.

Quotes provided by Sungard Market Data Services.

Fixed income market value does not include accrued interest. When accrued interest exists, it will be displayed as a separate value. The accrued interest value represents the aggregated amount as of last business day and will be identical in both "View Current Prices" and "View Prior Close" views.

The "% of Portfolio" calculation includes both the market value and any applicable accrued interest.

Accrued interest includes accrued interest on bonds and CDs.
