Subject: Charles Grace

EXTERNAL EMAIL

I had the pleasure of working with Charles Grace at the San Simeon Community Services District from 2016-2018. When I started working for the district there had been other contract operations companies working there for some time with mixed results. There was no real consistence to how the operations were handled. Charlie worked tirelessly to bring the operations to a standard that the Community Services District can be proud of. Just in my short time there the quality of the utilities were greatly improved. He has always had the communities best interest at heart and in my opinion done an excellent job of maintaining an older utilities system while also running a tight budget. San Simeon should feel extremely fortunate to have someone with Charlie's experience and skill level running the day to day operations of the CSD.

Sincerely,

Dane Lundy
