I have worked with Charles Grace of GES for about 6 years as a Director of the San Simeon CSD. He earned my trust in him in the first year as a Director through his wisdom and talent in improving the community. He is a man of honor and integrity.

It is my desire that the Commission in enforcing 1099 for the first time would understand that there was no harm done to the community. The Board of Directors were not coerced by Charles during the negotiations.

Charles and his staff have been the finest people I have ever worked with.
