Serial stalker, domestic abuser, conspiracy theorist Adina Flores has cost Sonoma County taxpayers over \$300,000 for PRA requests that she uses to harass and slander people. I would guess she's cost California taxpayers tens or hundreds of thousands of dollars more for phony FPPC complaints. Given that the FPPC complaints are sworn and costly, I'd like the FPPC to take legal action against her for submitting false information and for costing taxpayers thousands of dollars. Please sue her and collect to recover the costs and to put an end to her weaponizing the FPPC complaint process.
