I just received this today and I resent it. Why don't you write to Gov. Abbott and his minion (and criminal) Paxton? If they don't illegally gerrymander TX to help GOP win in 2026 election on Trump's orders, Newsom will not gerrymander mid decade, either.

We are sick of GOP cheating to win. We are losing our democracy and our rights. You know Trump and MAGA are destroying our country. Let Newsom fight fire with fire. He would prefer not to have to do it, too. But, if you keep letting the bully do the wrong thing while you claim the upper path of not playing their game, you lose. We are losing. Thank God for our Governor Newsom fighting back! About time! We cannot win by saying we are above their dirty play. Punch a bully in the nose, or he will come back for your lunch money every day.

Thanks for your attention to this matter. 🎉
