## **NON-ADOPTION & CLARIFICATION STATEMENT**

*Re: Declaration Attributed to Braden Eggert  
Submitted in Connection with FPPC Proceedings*

I, Braden Eggert, hereby submit this statement to clarify the record regarding a declaration that has been attributed to me and submitted in connection with proceedings before the Fair Political Practices Commission (FPPC).

This clarification is provided in good faith to ensure accuracy of the record and to avoid any misunderstanding regarding the context or use of the referenced declaration.

### **Preliminary Statement – No Admission / No Waiver**

This statement is made without prejudice. This statement is provided solely for the purpose of preventing mischaracterization of the record. Nothing in this statement shall be construed as an admission of any fact, legal position, or the accuracy of any statement contained in the referenced declaration. This clarification shall not be construed to limit, waive, or impair any claims, defenses, or causes of action in any forum, all of which are expressly reserved.

### **Additional Protections – Limited Purpose, No Evidentiary Use, and No Incorporation**

This statement is not intended for use as evidence in any proceeding and should not be relied upon for any purpose other than clarifying the limited context and non-adoption of the referenced declaration.

Nothing in this statement shall be construed to incorporate, supplement, or validate the contents of the referenced declaration.

To the extent the declaration contains statements that may be interpreted as reflecting my position, such interpretations are disputed.

### **1. Non-Adoption of Declaration**

While I acknowledge that I signed a declaration in a separate legal context, I did not authorize, direct, or consent to its submission to the FPPC or its use in this proceeding.

The declaration appears to have been submitted to the FPPC by a third party without my authorization, consent, or knowledge. To my knowledge, that submission was made by George Barich and/or his attorney, Carleton Briggs.

Accordingly, I do not adopt, ratify, or endorse the declaration as a statement of my position, intent, or factual assertions in this matter.

### **2. Limited Context of Original Declaration**

The referenced declaration was:

- Prepared for a different legal matter;
- Created for a distinct purpose and audience; and
- Not intended for use in any FPPC-related proceeding.

Any interpretation or reliance on that declaration outside its original context risks materially distorting its meaning and purpose.

### **3. Risk of Misleading Public Record**

Because the declaration is now part of a public record, the absence of this clarification may:

- Create a materially misleading impression of my position;
- Result in false attribution of statements or intent; and
- Lead to potential reliance on information that does not accurately reflect my views.

This clarification is therefore necessary to ensure the record remains accurate, complete, and not misleading.

### **4. Request for Association with Record**

I respectfully request that this statement be:

- Attached to or published alongside the declaration wherever it appears;
- Included in any materials, distributions, or records referencing the declaration; and
- Treated as an integral clarification of the record to prevent misinterpretation.

Any continued reliance on the declaration without this clarification may result in a materially misleading record and will be evaluated accordingly.

### **5. Reservation of Rights**

I expressly reserve all rights, including but not limited to the right to:

- Supplement or amend this statement;
- Challenge any improper use or characterization of the declaration; and
- Pursue any remedies available for misrepresentation, false attribution, or related legal violations.

### **6. Scope of Clarification and Applicability**

This clarification is intended to accompany any use, reference, or dissemination of the declaration to ensure the record is not materially misleading, regardless of the forum in which it is presented.

Any use of the declaration without this accompanying clarification may result in a materially incomplete or misleading representation of the record.

Improper reliance on the declaration without this clarification may create a materially misleading record, affect third-party understanding or reliance, and will be evaluated accordingly.

This statement is provided to ensure accuracy of the record and to prevent any mischaracterization, unintended reliance, or downstream misuse of the referenced declaration.
