EXTERNAL EMAIL

Hello, Commissioners:

I'm writing about Melanie Bagby's Case No. 2025-00594. While the violation appears to be valid, it also appears to be inadvertent.

More importantly, you all know why this came about: Adina Flores -- a known serial stalker, conspiracy theorist, domestic abuser, pathological liar, and all-around creepiest person in Sonoma County.

Flores has wasted hundreds of thousands of dollars in FPPC's staff time filing mostly bogus complaints. She is known as a proverbial broken clock with very few valid complaints throughout the hundreds of bogus complaints she's submitted. Her intentions are solely to harass anyone she disagrees with -- Democratic, liberal, and progressive elected officials and community leaders. She doesn't care about ethics and legal violations. Her whole life has become complete vendetta. Anyone she disagrees with she becomes creepily obsessed with and stalk them for years, harasses their family, and public defames them. She posts photos of their underage children just to harass them. She's currently being sued for defamation and deservedly so.

Fining Ms. Bagby \$9,000 will only embolden Flores to continue wasting taxpayer dollars with hundreds of more 99% bogus complaints. I encourage you to, when in receipt with any valid violation, if it comes from creeper Flores, to fine the respondent \$1. This would acknowledge the wrongdoing, but discourage the abuse of FPPC complaints.
