Subject: Amendments to a Statement of Organization
Section 84102 (d) and Section 84103

At its October 5 meeting, the Commission declined to adopt a regulation (proposed 18403) eliminating the need for committees to list every candidate to whom they make contributions on the Statement of Organization. Instead, the Commission decided to seek a legislative change next year.

In the meantime, the Commission directed the staff to give advice that there is no need to amend the statement of organization so long as the statement accurately describes the types of, not necessarily the SPECIFIC candidates and measures that the group will support or oppose.
